

# Superior Turbo & Injection Companies

VISCTRONIC® + XD11 = THE SOLUTION

## Visctronic Fan Drives

- **Precise fan speed control:** ECU closed loop control optimizes fan speed for improved fuel economy and horsepower availability
- **Quiet fan operation:** Smooth fully variable control reduces noise and vibration for reduced driver fatigue and improved cooling system durability
- **Low parasitic drag at fan idle speed:** Results in increased efficiency
- **Maintenance free:** Self-contained unit, nothing to service or maintain
- **Proven, reliable technology:** Invented by BorgWarner; in production for decades

## XD11 Fans

- Superior performance
- Meets the peak truck cooling requirements globally
- Best cooling performance at low RPMs using Visctronic fan drives

## NOW AVAILABLE:

**The Visctronic with an XD11 fan as a drop-in replacement module for 2010-2013 ProStar 13L applications**

**Simple, drop-in replacement:** Utilizes the same shaft mount configuration – No complicated conversions required.

**Re-flash or stand-alone controllers not required:** The Visctronic comes programmed to operate with the existing truck calibration.

**Field tested to show significant improvement in durability versus the competition:** No riveted connections. Robust bearing configuration.

**Horton Fan Clutch**

**990617**

**BorgWarner Fan Clutch**

**010025195**

**BorgWarner Fan Blade**

**F10026097**
