

# Genuine Holset® Reman™ Turbochargers

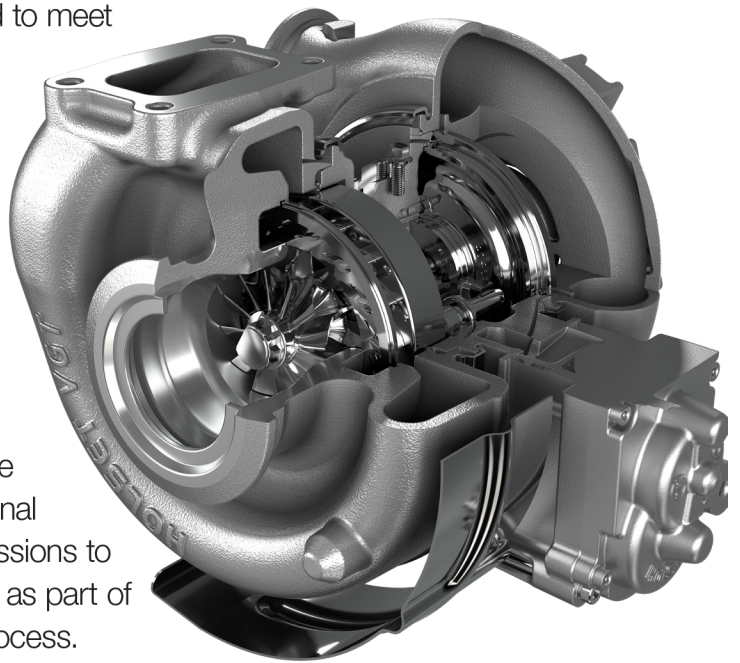

## High-Quality Products With Lower-Cost Options.

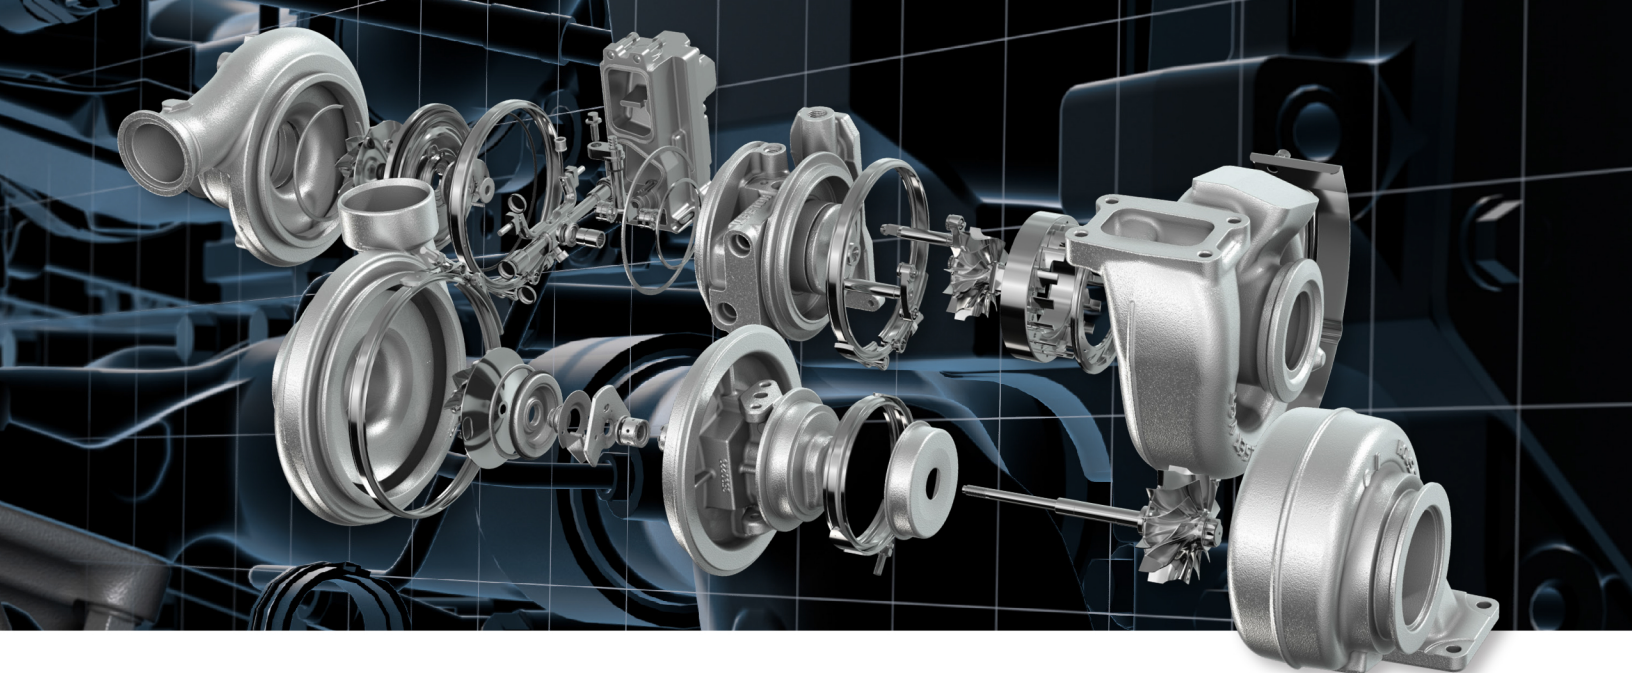

The Genuine Holset® Reman™ line of turbochargers is available globally for the aftermarket. As a leading innovator and supplier of turbochargers, Genuine Holset Reman offers superior quality products that meet original equipment (OE) specifications with the same warranty as New Holset Turbochargers at an affordable price.

### **The Same Standards As New Original Equipment Turbochargers.**

Genuine Holset Reman Turbochargers are remanufactured using patented components and assembly. The turbochargers follow a rigorous process to ensure every part is examined, cleaned, tested and restored to meet OE specifications using state-of-the-art facilities in a factory setting. This ensures that all Genuine Holset Reman Turbochargers have a superior level of quality and offers peace of mind to customers knowing the product will operate reliably.

For example, critical wear parts such as seals, thrust plates, bearings and fasteners are always replaced during the remanufacturing process. As an additional customer benefit, upgrades or supersessions to components are automatically included as part of the Genuine Holset remanufacturing process.

### **Rigorous Testing.**

Holset® Turbochargers are complex machines with speeds as fast as a jet engine. The durability and reliability of Holset products rests in the attention to detail and precise specifications. Critical parts such as the bore and shaft straightness are measured with tolerances as small as one micron (a strand of hair is 75 microns and a red blood cell is five microns).

### **Consequences Of Choosing A Non-Genuine Turbo?**

Using non-genuine products can expose your engine and its performance systems to:

- ⚠ Complications and compromises in safety
- ⚠ Increased fuel consumption
- ⚠ Less engine power
- ⚠ Poor performance and drivability
- ⚠ Additional costs to repair/replace parts over engine life
- ⚠ Higher emissions

### **Choose A Genuine Holset® Product.**

Take charge and make the smart choice by choosing a Genuine Holset® Reman™ Turbocharger. Enjoy peace of mind as your business operates smoothly and efficiently with only the genuine products. Contact your Cummins distributor today.
